

# Notified Body Directives RED / R&TTE and EMC

The independent certification institute is open to all manufacturers, all test laboratories and all authorized representatives.

With a reputation of more than 40 years for its efficient and prompt handling of applications for certification we decisively reduce time to market your products in Europe, USA, Canada, Japan and also the Far East and the rest of the world.

Keep in mind that we finally assure a complete one stop solution.

As a matter of fact EMCCert DR. RAŠEK GmbH is acknowledged and recognized according to ISO 17065 by the German Federal Network Agency (BNetzA).

## Certification & International Type Approval Management

Electromagnetic Compatibility – Environmental Simulation  
Consulting, Testing, Certification, Components, Seminars

# Certification Institute

The services provided by the Notified Body EMCCert DR. RAŠEK give manufacturers help and certainty in the conformity assessment process. We are your partner for Certification and International Type Approval.

## Our Services

For the European Market:

- ▶ Notified Body per Directives RED and R&TTE
- ▶ Notified Body per Directive EMC

Acknowledged Conformity Assessment Body (CAB) as per the MRA agreements between the EC and USA, Canada and Japan

- ▶ TCB (Telecommunication Certification Body) for FCC approval for USA
- ▶ FCB (Foreign Certification Body) for IC approval for Canada
- ▶ RCB (Registered Foreign Certification Body) according to Radio Law for Japan

Global approval services

- ▶ International approval management for wireless equipment and telecommunications equipment

**On the basis of our certification support the European market becomes more rapid and cost-effective for our customers than ever before!**

# International Type Approvals for E&E Products

EMCCert DR. RAŠEK has been successfully providing certification management for its customers for many years. As a result, we are experts on international type approvals (ITAs). We offer our customers worldwide approval services for their radio, consumer electronics and telecommunications devices.

## Our Portfolio

- ▶ Research into the target country's technical and regulatory requirements
- ▶ Planning, management and execution of the approval process
- ▶ Translation of relevant documentation into the language of the target country
- ▶ Assistance, if needed, with EMC or radio testing in the target country, i.e. on-site support for witness testing procedures.
- ▶ Submission of documentation to relevant governmental agencies, including deadline management

# Country approval services

When your target market is not covered by mutual recognized standards or agreements, we can handle the certification process with the responsible authorities on location. We help you fulfil country-specific regulatory and technical requirements, and to ensure rapid, reliable go-to-market. We provide services for following countries and regions, amongst others:

- ▶ Europe, including countries outside the EU: Iceland, Liechtenstein, Switzerland, Macedonia, Montenegro, Serbia, Turkey
- ▶ Central and South America: e.g. Argentina, Brazil, Chile, Mexico
- ▶ North America
- ▶ Asia: e.g. China, India, Indonesia, Japan, Singapore, South Korea, Taiwan
- ▶ Africa and the Middle East: e.g. Egypt, Israel, Morocco, South Africa, Tunisia, United Arab Emirates
- ▶ Russia, CIS, and other Russian-speaking countries: Armenia, Azerbaijan, Belarus, Kazakhstan, Kyrgyzstan, Moldova, Russia, Tajikistan, Turkmenistan, Ukraine, Uzbekistan
- ▶ Australia, New Zealand

Upon request, EMCCert DR. RAŠEK offers approval services for further countries and regions.

**We can also verify and assess your product's technical documentation to ensure rapid and reliable go-to-market.**
